Letter From President Hyland

Dear Graduate,

Congratulations on completing your degree from American College of Education! We know you worked hard to get here, fitting countless hours of reading, writing and studying into your already busy lives. Time and again, you have impressed us with your grit, passion and commitment to expanding your mind and skills. We could not be more thrilled to have this opportunity to celebrate the culmination of your hard work with you.

As ACE proudly marks our 20th anniversary, it feels especially meaningful to honor you — our newest graduates — who continue to shape and strengthen our legacy. For two decades, we have stood by working professionals like you, who choose to challenge themselves and grow.

Of course, we know that for many of you, this educational journey was not one you walked alone. Your family and friends, colleagues and mentors, were there to support you, push you, inspire you, guide you and give you the space you needed to achieve this success. To them, we'd like to say a generous thank you!

The world we live in today can be daunting and many of you work in challenging fields, where you face obstacles or uncertainty on a daily basis. We hope your time with us has not only equipped you with more knowledge and skills, but shown you how much resilience and strength you already possess. You have the power to effect change, be a pioneer, rally a team and advocate for a better path ahead. You have what it takes.

We are so excited for you to take your new degree and use it as a springboard toward future opportunities to serve, lead and achieve! Know that we will still be here to support you if you ever need it. We love our alumni community just as much as our students, and we're happy that you're now a part of it.

It was an honor to be part of your journey. I wish you much success in your career and future endeavors.

Sincerely,

A handwritten signature in black ink that reads "Geordie Hyland". The script is fluid and cursive, with the first name "Geordie" being more prominent than the last name "Hyland".

Higher Education Done

Differently

ACE Celebrates 20 Years

As American College of Education embarks on its 20th year of providing high quality online education, we reflect on our history and what brought us to this milestone. One thing above all stands out — when higher education is done differently, amazing things can happen.

Back in 2005, our founders asked themselves, “How can we provide teachers with master’s degrees for less than \$5,000?” It seemed like an impossible proposition. And yet, through intentional program design, a practical and tailored curriculum, and a school district partnership, we were able to make it happen.

Our first cohort was just 24 students, all of them teachers looking to advance their careers. Today, we honor you — our graduates — who continue that legacy of determination, excellence and service. Each of you embodies the spirit of ACE: ambitious professionals balancing life’s many demands while pursuing a transformative education. You inspire us to keep reimagining what is possible in higher education and to remain steadfast in our mission to provide affordable, accessible and high-quality learning opportunities.

As you cross this stage and step into your next chapter, know that you are part of a growing community of leaders, educators and innovators making a difference around the world. Congratulations on all you have accomplished — and thank you for making ACE’s story one worth celebrating.
