Student Assessment Measures: Education

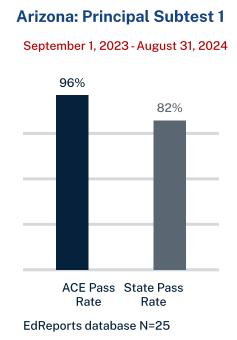

ACE offers multiple programs that are approved in specific states as leading to initial teacher or administrative certification, licensure, or endorsement.

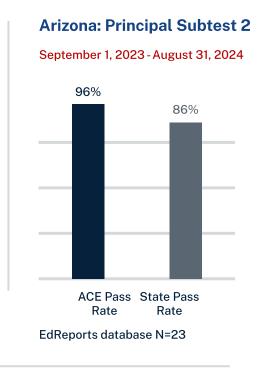

Receipt of initial teacher or administrative certification, licensure, or endorsement may also require the passage of specific tests, determined by that jurisdictional authority to receive licensure or endorsement. The following represents a comparison of ACE pass rates and the average state pass rate as provided by the identified state where ACE is listed as a State Department of Education approved and recognized Education Program Preparation Provider. American College of Education's goal, as stated in the Strategic Plan, is to "beat" the state averages in each state where a program leads to licensure.

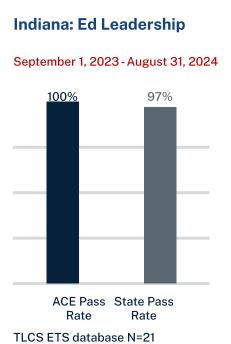

Data reflect the specified licensure exam results available from September 1, 2023 through August 31, 2024 unless otherwise stated.

Annual Retention Rate by Degree Level

January 2024 Census Date - January 2025 Census

ACE calculates an annual retention rate for all certificate and degree-seekers actively enrolled at some point during the previous year, beginning with the January Census (less graduates), who remain in an active status as of the January term census date of the reporting year with transfers representing students who have moved to another degree level.

Degree Level	Total N	Transfer Degree Level	Withdrawal	Retention Rate
Certificate	1,117	2.7%	20.3%	77.0%
Bachelor's	393	0.5%	18.6%	80.9%
Master's	8,891	0.8%	11.9%	87.4%
Specialist	316	6.0%	23.4%	70.6%

Graduation Rate by Degree Type

Graduations between January 1, 2024 and December 31, 2024

American College of Education calculates an annual graduation rate, which establishes rates of completion based on a student's initial enrollment in a cohort, using expected time-to-completion for their program and the most current start cohort for reporting (e.g., 2020 start cohort for the master's level). Students are only reported once at the degree level, even if enrolled in more than one program at that level.

Data reflect students who completed a program of study by December 31, 2024.

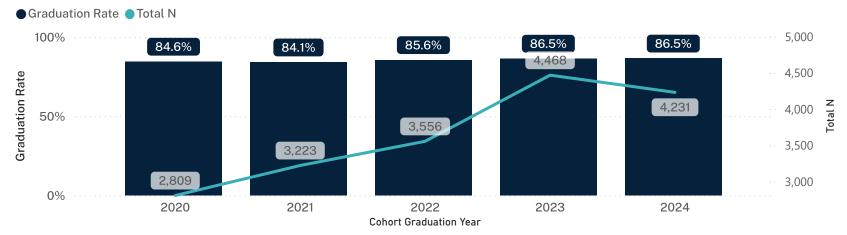

Degree Level	Total N	Transfer Degree Level	Withdrawal	Time-to- Completion Expectations	Graduation Rate
Bachelor's	54	1.9%	29.6%	3 years	68.5%
Master's	4,231	1.2%	12.3%	3 years	86.5%
Specialist	71	8.5%	38.0%	7 Years	53.5%
Doctorate	102	8.8%	57.8%	10 Years	33.3%
Grand Total	4,458	1.5%	13.9%		84.6%

Source: ACE college systems, Department of Institutional Analytics

Note 1: Doctoral programs were launched at ACE in 2013. Only two cohorts have reached the 10-year threshold for expected time-to-completion for reporting. Note 2: The Specialist programs at ACE are designed to offer transfer pathways to and from the doctorate programs. Meaning, the College expects to see a higher percentage of transfers in and out of the program.

5-Year Master's Degree Graduation Rate Trend

5-Year Master's Degree Graduation Rate and Total N by Cohort Graduation Year

Note: As both Bachelor's and Specialist degree levels are in their fourth year of graduation rate reporting, based on time-to-completion expectations, only Master's degree level rates are shown for the last 5 years.

Continuing Education, Employment, and Earnings Metrics

After students graduate from American College of Education they are invited to participate in an exit survey to help ACE better serve its students by gaining an understanding of what ACE did well, what it could improve upon, and what graduates plan on doing with their degree. The statistics below provide information regarding ACE's continuing education, employment, and earnings metrics as reported to the institution by its graduates.

Graduation Rate by Program

Graduations between January 1, 2024 and December 31, 2024

American College of Education calculates an annual graduation rate, which establishes rates of completion based on a student's initial enrollment in a cohort, using expected time-to-completion for their program and the most current start cohort for reporting (e.g., 2021 start cohort for the master's level). Students are only reported once at the degree level, even if enrolled in more than one program at that level.

Data reflect students who completed a program of study by December 31, 2024.

Note 1: Doctoral programs were launched at ACE in 2013. Only two cohorts have reached the 10-year threshold for expected time-to-completion for reporting. Note 2: The Specialist programs at ACE are designed to offer transfer pathways to and from the doctorate programs. Meaning, the College expects to see a higher percentage of transfers in and out of the program.
